

## **PUBLIC HIGHWAY AUTHORITY**

---

Adams County, Arapahoe County, Douglas County, Cities of Aurora, Brighton, Commerce City, Thornton and the Town of Parker, Colorado

October 17, 2006

Greetings:

E-470 prepares a quarterly newsletter containing a variety of information. We provide information on E-470 construction projects such as the flyby over I-70 that recently opened, widening of the highway, adding additional lanes to single ramp intersections, etc.

We update our EXpressToll customers on any new policies or new rewards for EXpressToll customers. E-470 is involved in community relations and activities with our five cities and three counties that we pass through.

From time to time we will update our readers with the new developments being proposed or constructed along the E-470 corridor, tips for winterizing your vehicles, special E-470 events coming up, and much more.

We would like to share this newsletter with your homeowners' association members. A link to the newsletter is emailed out once a quarter. If you communicate with your members via email, we would appreciate you sharing the link with them. You can view the most recent newsletter by going to our Web site at [www.e-470.com](http://www.e-470.com), and clicking on the newsletter link at the bottom of the home page. It is also available in the media room on the Web site.

If you would like to receive the quarterly link to our newsletter, please either call me with your email address and name of the association, or email me at [jsnell@e-470.com](mailto:jsnell@e-470.com). If you are no longer the main contact for your association, I would appreciate you sharing this letter with the appropriate person. Thank you for your consideration.

Sincerely,

Jo Snell, Manager of  
Community and Public Relations
